

# Download Nissan Manual Transmission Wiki

The first Nissan/Jatco transmission, the Jatco 3N71 transmission, used a simple naming scheme: the "3" meant "3-speed", and the remainder was the series number. Beginning in 1982, it gained a locking torque converter (L3N71b) for greater efficiency. (See L3N71 link below). Automatic transmissions. Aisin automatic transmissions are manufactured by Aisin Seiki and Aisin AW, formerly known as Aisin-Warner, and which was established in 1969 as a joint venture between Aisin Seiki and BorgWarner. The joint venture terminated in 1987. While Aisin Seiki manufactures a variety of automotive components including automatic transmissions for heavy duty vehicle applications ... Manual transmissions on Nissan vehicles Just about every model in Nissan's lineup comes with an available auto-manual transmission. However, only a few come standard or available with a fully-manual transmission. They are the 370Z, Frontier, Sentra, and Versa. The only L series transmission to do so. It was approximately 26.3" long and considered a 'short tail' transmission. The same transmission was used in the '70-'72.5 521 truck, but had a flange output which has to be removed if used for swapping, and the '72.5-'73 620 truck, but without the flanged output.
